**2 STEP VERIFICATION**

***At Bruno Credit Union your online security is a top priority. This month we implemented a new layer of security to the way that you login to your online banking called 2 Step Verification.***

***What is 2 Step Verification?***

- ***It is used to confirm your identity by sending you a code via text or email that you must enter before continuing into your online banking.***

***What are the steps to setup 2 Step Verification?***

- 1. Login to your online banking. The login screen will look a little different.***
- 2. Complete the Enable 2 Step Verification enrolment screen when prompted.***
- 3. Enter your preferred email address or mobile phone number to receive your verification code. If available, we recommend that you use a mobile phone number as it is considered the most secure way.***
- 4. Enter the verification code sent to you.***

***By October 15, 2021, you will need to have completed the 2 Step Verification process or you will not be able to login to online banking until you complete the process. Until then it will let you login and do the transactions you choose.***

***You will not be prompted every time you login to enter a code. You may be prompted if you are logging in from a different device.***

***If you need any assistance, please do not hesitate to contact our office. We would be happy to assist.***
